CANISIUS COLLEGE

BUFFALO, N. Y.

1882—1883.

PROSPECTUS.

THIS Institution, conducted by members of the Society of Jesus, Washington Street, Buffalo, *N. Y., was opened in September, 1870, and was incorporated in January, 1883, by "The Regents of the University of the State of New York" with power to confer Degrees and Academical Honors.

The College has two courses: the Classical and Commercial. The Classical course embraces the Latin, Greek, English, German and French languages; also English Literature, Rhetoric, Poetry, Elocution, History and Geography, likewise a course of Mathematics, Book-keeping, Natural Philosophy, Chemistry, Astronomy, Penmanship, Vocal and Instrumental Music. This course lasts six years.

Those who wish may add Mental and Moral Philosophy, continuing one or two years longer.

The Commercial course offers to those who are intended for Mercantile pursuits an opportunity of perfecting themselves in all branches of the Classical course except the Latin and Greek languages and Mental Philosophy. This course commences with Elementary Book-keeping and goes on with explanations of Business Practices, Laws of Merchants, Negotiable Paper, etc.

A Preparatory course is open for the benefit of those students whose insufficient knowledge of the rudiments prevents them from following the regular course.

A students' Library has been established for the purpose of encouraging good and useful reading.

There is a very handsome and complete set of philosophical instruments in the College. The accuracy of the instruments has been thoroughly tested by the professor, in illustrating a very interesting course of lectures during the past year.

The Chemical Laboratory is complete to illustrate a full course of Chemistry.

To afford a complete knowledge of Nature, and to illustrate a course of natural history, a collection of specimens of minerals, plants, animals and petrifications has been commenced and will be continued. A Numismatical cabinet is also commenced.

Students who wish to enter the College as Boarders will find ample and suitable accommodations.

Every candidate for admission, who is not personally known to some member of the Faculty, must furnish satisfactory testimonials as to his good moral character. The students are constantly under the watchful eye of the Fathers. The system of government is firm, yet mild and paternal.

The ordinary causes of dismissal are: continued inapplication and bad conduct.

On recreation days the Boarders have regular walks; and as the College has a villa on the outskirts of the city the students frequently spend their recreation there.

To aid in the physical development of the students a duly qualified Professor regularly attends the College and superintends the Gymnastic Exercises.

Every convenience is also provided for hot and cold bathing.

Those who have parents or guardians residing in the city will be allowed to visit them once a month. This privilege, however, will be withheld from any student whose conduct or application has not been satisfactory.

No Boarder will be permitted to visit the city, unless for urgent reasons, at the special request of parents or guardians, and accompanied by them or by one of the Faculty. It is most important

that such requests should be made as rarely as possible; because frequent visits to the city are hurtful to the students and very annoying to the College.

The use of tobacco is strictly prohibited.

The correspondence is subject to the inspection of the President.

In order that the Day-scholars may be properly prepared for their classes, their parents are requested to insist on their devoting two or three hours every evening to private study.

Punctual attendance is especially required. In case of absence the parents or guardians are requested to make known the reasons.

The scholastic year consists of one session of ten months. The session is divided into two terms, beginning respectively in September and February.

Quarterly reports are sent to parents or guardians of Boarders, and semi-annual reports to parents and guardians of Day-scholars, respecting the progress, application, etc., of their sons or wards.

Weekly reports are also given to the Day-scholars respecting their conduct, application, attention and deportment; and parents are requested to sign them, and see that they are returned to the College.

During Christmas vacation leave of absence from College will not be granted, unless for very urgent reasons. This rule will be strictly enforced, as its neglect generally proves very detrimental both to the students and their studies.

The annual vacation begins about the end of June, and closes on the first Wednesday in September. Students must be at the College on the day of re-opening.

TERMS.

The College terms, payable half-yearly in advance, are as follows:

Board and Tuition,	-	-	-	-	-	-	-	\$200.00
Washing,	-	-	-	-	-	-	-	20.00
Bedding, if furnished by the Institution,	-	-						12.00
Day-scholars,	-	-	-	-	-	-	-	40.00
Use of Library,	-	-	-	-	-	-	-	1.00

Extra charges for Music lessons, the use of Instruments, and for Gymnastics.

No extra charges for Languages.

No deduction will be made for removal within the term of half a year, except in case of protracted sickness or dismissal.

Books, Stationery, Clothes, etc., can be furnished by the College at current rates, or may be procured by parents or guardians.

No advances will be made by the College for clothing, or for any similar purpose, unless an equivalent sum be deposited in the hands of the Treasurer.

With regard to pocket-money it is desirable that parents should allow their sons only a moderate sum, and that this be left, not with their sons, but with the Treasurer of the College, to be given as prudence may suggest or occasion require.

REV. M. PORT, S. J.,

President of the College.

12. CHRISTIAN DOCTRINE.

OPTIONAL COURSES.

These studies are open to students of both the *Classical and Commercial* departments *without extra charge*.

1. GERMAN—Owing to the great importance now attached in our country to a knowledge of German, those wishing to perfect themselves in this branch will be afforded an opportunity of following a full course, embracing everything from the first rudiments to the study of German Literature. The different classes are so arranged, that on the one hand those who have no knowledge of the language may easily acquire it, as they will be instructed not only theoretically, by regular lessons and exercises, but also practically, by spending a part of their recreation in German conversation,—and that on the other hand those who have already made some progress, may have an opportunity of perfecting themselves in its higher branches.

2. FRENCH—A full course of French is opened for such of the students as desire to apply themselves to this study.

CANISIUS COLLEGE

BUFFALO, N. Y.

1883—1884.

PROSPECTUS.

THIS Institution, conducted by members of the Society of Jesus, Washington Street, Buffalo, N. Y., was opened in September, 1870, and was incorporated in January, 1883, by "The Regents of the University of the State of New York" with power to confer Degrees and Academical Honors.

The College has two Courses: the Classical and Commercial. The Classical Course embraces the Latin, Greek, English, German, and French Languages, English Literature, Rhetoric, Poetry, Elocution, History, and Geography, likewise a Course of Mathematics, Book-keeping, Natural Philosophy, Chemistry, Astronomy, Penmanship, Vocal and Instrumental Music. This Course lasts six years.

For students who have completed the Classics, a Course of Mental and Moral Philosophy will be opened.

The Commercial Course offers to those who are preparing for a Mercantile career an opportunity of perfecting themselves in all the branches necessary for Commercial pursuits. Commencing with Elementary Book-keeping, it comprises explanations of Business Practices, Laws of Merchants, Negotiable Paper, etc.

A Preparatory Course is open for the benefit of those students whose insufficient knowledge of the rudiments prevents them from following the regular Course.

A Students' Library has been established for the purpose of encouraging good and useful reading.

There is a very handsome and complete set of Philosophical Instruments in the College. The accuracy of the instruments has been thoroughly tested by the Professor, in illustrating a very interesting Course of Lectures during the past year.

The Chemical Laboratory is complete to illustrate a full Course of Chemistry.

To encourage the knowledge of Nature, and to illustrate a Course of Natural History, a collection of specimens of minerals, plants, animals and petrifications has been commenced, and will be continued. A Numismatical Cabinet is also commenced.

Students who wish to enter the College as Boarders, will find ample and suitable accommodations.

Every candidate for admission, who is not personally known to some member of the Faculty, must furnish satisfactory testimonials as to his good moral character. The students are constantly under the watchful eye of the Fathers. The system of government is firm, yet mild and paternal.

The ordinary causes of dismissal are: continued inapplication and bad conduct.

On recreation days the Boarders have regular walks; and as the College has a villa on the outskirts of the city, the students frequently spend their recreation there.

To aid in the physical development of the students, a duly qualified Professor regularly attends the College and superintends the Gymnastic Exercises.

Every convenience is also provided for hot and cold bathing.

Those who have parents or guardians residing in the city, will be allowed to visit them once a month. This privilege, however, will be withheld from any student whose conduct or application has not been satisfactory.

No Boarder will be permitted to visit the city, unless for urgent reasons, at the special request of parents or guardians, and accompanied by them or by one of the Faculty. It is most important that such requests should be made as rarely as possible; because

frequent visits to the city are hurtful to the students and very annoying to the College.

The use of tobacco is strictly prohibited.

The correspondence is subject to the inspection of the President.

In order that the Day-scholars may be properly prepared for their classes, their parents are requested to insist on their devoting two or three hours every evening to private study.

Day-scholars may study at the College under the direction of one of the Fathers every evening from 4 to 6.50 P. M., on payment of \$2.50 per month.

Punctual attendance is especially required. In case of absence the parents or guardians are requested to make known the reasons.

The scholastic year consists of one session of ten months. The session is divided into two terms, beginning respectively in September and February.

Every student, presenting himself for admission, will be examined and placed in that Class, to which his previous acquirements entitle him.

Quarterly reports are sent to parents or guardians of Boarders, and semi-annual reports to parents and guardians of Day-scholars, respecting the progress, application, etc., of their sons or wards.

Weekly reports are also given to the Day-scholars, respecting their conduct, application, attention, and deportment; and parents are requested to sign them, and see that they are returned to the College.

During Christmas vacation leave of absence from College will not be granted. This rule will be strictly enforced, as its neglect generally proves very detrimental, both to the students and their studies.

Eatables may be sent to the Boarders for Christmas, but at no other time of the year.

After due Examinations of the Classes the annual vacation begins about the end of June. Classes are re-opened on the first Wednesday of September.

TERMS.

A. For Boarders:

Board and Tuition, yearly,	-	-	-	\$200.00
Washing,	-	-	-	20.00

CANISIUS COLLEGE

A. M. D. G.

CATALOGUE

— OF —

— CANISIUS — COLLEGE —

BUFFALO, N. Y.

1884-1885.

PROSPECTUS.

THIS Institution, conducted by members of the Society of Jesus, Washington Street, Buffalo, N. Y., was opened in September, 1870, and was incorporated in January, 1883, by "The Regents of the University of the State of New York" with power to confer Degrees and Academical Honors.

The College has *three Courses* :

I. The Classical Course. This Course embraces the Latin, Greek, English, German, and French Languages, History, Geography, Elocution, Poetry, Rhetoric, and English Literature, likewise a Course of Mathematics, Natural Philosophy, Chemistry, Book-keeping, Penmanship, Vocal and Instrumental Music. The Course lasts six years.

II. The Philosophical Course. Mental and Moral Philosophy for Students, who have completed the Classics.

III. The Commercial Course. This Course offers to those who are preparing for a Mercantile career an opportunity of perfecting themselves in all the branches necessary for Commercial pursuits. Commencing with Elementary Book-keeping, it comprises explanations of Business Practices, Laws of Merchants, Negotiable Paper, etc.

A Preparatory Course is open for the benefit of those students whose insufficient knowledge of the rudiments prevents them from following the regular Course.

A Students' Library has been established for the purpose of encouraging good and useful reading.

There is a very handsome and complete set of Philosophical Instruments in the College. The accuracy of the instruments has been thoroughly tested by the Professor, in illustrating a very interesting Course of Lectures during the past years.

The Chemical Laboratory is complete to illustrate a Course of Chemistry.

To encourage the knowledge of Nature, and to illustrate a Course of Natural History, a collection of specimens of minerals, plants, animals and petrifications has been commenced, and will be continued. A Numismatical Cabinet is also commenced.

Students who wish to enter the College as Boarders, will find ample and suitable accommodations.

Every candidate for admission, who is not personally known to some member of the Faculty, must furnish satisfactory testimonials as to his good moral character. The students are constantly under the watchful eye of the Fathers. The system of government is firm, yet mild and paternal.

The ordinary causes of dismissal are: continued inapplication and bad conduct.

On recreation days the Boarders have regular walks; and as the College has a villa on the outskirts of the city, the students frequently spend their recreation there.

Every convenience is also provided for hot and cold bathing.

Those who have parents or guardians residing in the city, will be allowed to visit them once a month. This privilege, however, will be withheld from any student whose conduct or application has not been satisfactory.

No boarder will be permitted to visit the city, unless for urgent reasons, at the special request of parents or guardians, and accompanied by them or by one of the Faculty. It is most important that such requests should be made as rarely as possible; because frequent visits to the city are hurtful to the students and very annoying to the College.

The use of tobacco is strictly prohibited.

The correspondence is subject to the inspection of the President.

In order that the Day-scholars may be properly prepared for their classes, their parents are requested to insist on their devoting two or three hours, every evening, to private study.

Day-scholars may study at the College under the direction of one of the Fathers, every evening from 4 to 6 o'clock, on payment of \$2.50 per month.

Punctual attendance is especially required. In case of absence the parents or guardians are requested to make known the reasons.

The scholastic year consists of one session of ten months. The session is divided into two terms, beginning respectively in September and February.

Every student, presenting himself for admission, will be examined and placed in that Class, to which his previous acquirements entitle him.

Quarterly reports are sent to parents or guardians of Boarders, and semi-annual reports to parents or guardians of Day-scholars respecting the progress, application, etc., of their sons or wards.

Weekly reports are also given to the Day-scholars, respecting their conduct, application, attention, and deportment; parents are requested to sign them, and to see that they are returned to the College.

During Christmas vacation leave of absence from College will not be granted. This rule will be strictly enforced, as its neglect generally proves very detrimental, both to the students and their studies.

Eatables may be sent to the Boarders for Christmas, but at *no other time* of the year.

After due Examinations of the Classes the annual vacation begins about the end of June.

Classes will be re-opened on the first Wednesday of September.

TERMS.

A. For Boarders:
